Center

WHAT DOES THE CERTIFICATION TEST INCLUDE?

The CSWP exam is an all-day event that consists of a general knowledge exam and a performance-based modeling test. The general knowledge exam includes multiple choice, true/false, matching, and fill-in-the-blank questions. The performance based portion of the test consists of two parts:

1. **SolidWorks Basic Skills:** Create and edit basic models, build assemblies, and create drawings. Demonstrate mastery of feature creation, and diagnosis and repair of models.
2. **SolidWorks Advanced Topic:** Choose one advanced topic and demonstrate your ability to use SolidWorks to handle advanced tasks. Some examples of advanced topics include sheet metal, mold creation, and freeform shapes.

WHAT IS A PASSING GRADE AND HOW IS THE CERTIFICATION TEST WEIGHTED?

You must receive a score of at least 80% to pass the certification test. The test is weighted in the following manner:

- ✓ Written Exam - 20%
- ✓ Basic Skills - 60%
- ✓ Advanced Topic - 20%

WHAT WILL I RECEIVE AFTER PASSING THE CSWP PROGRAM?

You will receive a "Certified SolidWorks Professional" certificate, which is suitable for framing. In addition, you will receive a CSWP logo to use for marketing your skills more effectively. SolidWorks Corporation will also add your name to a web-based directory of Certified SolidWorks Professionals, which serves as a reference to instantly establish your credentials.

WHAT HAPPENS IF I FAIL?

If you fail the exam, SolidWorks will notify you and provide you with an evaluation, which will highlight problematic areas that require additional attention. In addition, you can take the exam again as many times as needed. Simply reregister and pay for the next exam.

A
PROVEN PROGRAM
FOR EVALUATING
AND MEASURING
PROFESSIONAL
COMPETENCE IN
MAINSTREAM 3D
MODELING

The Certified SolidWorks Professional (CSWP) Program is a proven method for evaluating and measuring professional competence mainstream 3D modeling. CSWP establishes a widely accepted standard of excellence for 3D modeling professionals, resulting in better product designs.
